sustainable performance

c7-consult has calculated
the **Corporate Carbon Footprint** according to Greenhouse Gas Protocol
for the production sites Wels, Austria, and Borovany, Czech Republic, for
COLOP Stempelerzeugung Skopek GmbH & Co. KG

COLOP
MARKING SOLUTIONS

The calculation of greenhouse gas emissions took into account all raw materials and packaging as well as their delivery, energy consumption, company fleet, business travel, employee commuting and transport between the sites. For the products in the stamp range produced in Wels and Borovany in 2022, these greenhouse gas emissions were offset with the following international climate protection projects according to the Gold Standard:

GS1-1-NC-GS566-12-2018-19151-658-1157

GS1-1-RW-GS4906-16-2019-20728-89-4405
